The following agenda was discussed, verified and approved by BOS in the meeting.

#### 1. Framing and approval of syllabus :

The scheme of study, examination and NEP-2020 Syllabus for DSC, OE and Practicals papers of BSc I semester and II Semesters of Mathematics(UG) and I BCA & IBVoc-IT Discrete Structures paper were scrutinized and approved by the BOS with following changes.

##### I Semester -Theory: BSc

- Unit I: a. Name of "Row and column reduction to echelon form" is changed to "Elementary row and Column Operation"  
b. Cayley Hamilton Theorem without proof is considered.  
c. Problems to find  $A^2, A^3, A^{-2}$  removed.

Unit II: a. nth derivatives of standard function is changed to "Successive differentiation- an nth derivative of standard function".

Unit IV: Homogeneous function -Euler's theorem is shifted after composite Functions.

##### I Semester-Practicals: BSc

- a. Second problem changed to Basic Programs on software.  
b. Suggested softwares Matlab and Mathematica are removed from list and remaining four retained.

##### I Semester -Theory :BCA & BVoc-IT

Unit I: Set theory with same syllabus as BCU.

Unit II: Logic: Conditional propositions and Methods of Proofs added.

Unit III: Counting and Relations : modelling with recurrence relations with example removed.

Unit IV: Matrices: Eigen value and Eigen vector added. Graph theory Unit is removed.

P.T.O.

II Semester -Theory: BSc

Unit II : Group II is removed and Integral calculus II is introduced.

Syllabus for integral calculus is as follows: Line integral :Definition of line integral and basic properties, examples on evaluation of line integral. Double integral: Definition of double integral and basic properties, examples on evaluation of double integral. Triple integral: Definition of triple integral and basic properties , examples on evaluation of double integral.

II Semester-Practicals: BSc

- a. Problems 5 and 6 removed and replaced with program on line integral and programs on double and triple integration respectively
- b. Suggested softwares Mat lab and Mathematica are removed from list and remaining four retained.

2. Question Paper Pattern

a. Question paper pattern for 3 hours and 2 hours of theory final exam and question paper pattern for IA theory and IA practicals of DSC of BSc I semester and II semesters , DSC- Discrete Structures of IBCA and IBVoc-IT and OE of I and II semesters were approved.

Approved syllabus with question paper pattern is enclosed in Annexure-2

3. Panel of examiners was recommended and approved for UG Examination for the Academic year 2021-22.

List of panel of examiners approved by BOS is enclosed in Annexure-3.

3. Syllabus (V & VI Semester UG Microbiology) was discussed and approved and has been enclosed in Annexure -2
4. Question Paper pattern (Theory & Practical) and duration of examination were finalized

#### V SEMESTER PAPER V: MOLECULAR BIOLOGY (THEORY)

- All the Units were discussed and retained necessary corrections

#### V SEMESTER PAPER V: MOLECULAR BIOLOGY (PRACTICAL)

- Extraction of crude DNA from bacteria was retained.
- Restriction digestion experiment was removed since it is included in genetic engineering in 6<sup>th</sup> semester.
- Nucleotide composition of RNA was replaced by Agarose gel electrophoresis.
- Practical question paper and scheme were modified

#### PAPER VI: FOOD MICROBIOLOGY (THEORY)

- All the Units were discussed and retained necessary corrections

#### PAPER VI: FOOD MICROBIOLOGY (PRACTICAL)

- **Experiment 1 and 2:** Instead of identification, Isolation and enumeration of bacteria and fungi in the both the experiment 1 and 2 were included.
- **Experiment 3:** Rapid platform tests were included in the experiment 3 for Evaluation of quality of milk
- As an alternative for **experiment 5 and 7 (SPC/ yoghurt)** industry friendly (test for food adulterants) experiment were included.
- **Experiment 10** was reframed with isolation and identification of food borne pathogens, *Aspergillus*, *Clostridium* was replaced by *Shigella* and *E.coli*
- Detection and bioassay of aflatoxin / effect of chemical preservatives on fruits juices was added
- Entrepreneurship –To study the necessary measures to be an entrepreneur in food industry (Industrial visit to students- was finalized)
- Scheme and question paper patterns of practical examinations were modified
- Marks for viva Voce has been enhanced to 5 from 4 in all the practical examination

#### SEMESTER VI: IMMUNOLOGY AND MEDICAL MICROBIOLOGY (THEORY)

- All the Units were discussed and retained with necessary corrections

#### SEMESTER VI: IMMUNOLOGY AND MEDICAL MICROBIOLOGY (PRACTICAL)

- Rocket immunoelectrophoresis was included
- *Pseudomonas* and *Bacillus* was removed from the experiment Identification pathogenic bacteria and the organism *Proteus* was included
- All the other experiments were discussed and reframed.

## SEMESTER VI: MICROBIAL GENETIC ENGINEERING AND INDUSTRIAL MICROBIOLOGY (THEORY)

- All the Units were discussed and retained with necessary corrections

## SEMESTER VI: MICROBIAL GENETIC ENGINEERING AND INDUSTRIAL MICROBIOLOGY (PRACTICAL)

- The physicochemical methods: UV and EMS method were included in the experiment- Induction of mutations in bacteria
- Estimation of total acidity, volatile acidity and alcohol content by specific gravity method was included in the experiment wine preparation
- Protein estimation was added in the experiment- mushroom production.
- Different substrates were included in the experiment- Production and estimation of citric acid
- Study of recombinant products- insulin, basic fermentor and types were included.
- All the other experiments were discussed and reframed
- Scheme and question paper patterns of practical examinations were modified

## SEMESTER I: PRACTICAL

- Capsule staining protocol was discussed.
- Flagellar staining was included for demonstration.

## SEMESTER I: OPEN ELECTIVE- THEORY

- Fermented food types was classified on the basis of microorganisms.
- Alcoholic products topic was specified and included.

## SEMESTER II: PRACTICAL

- All the experiments were discussed and reframed

## SEMESTER III: THEORY

- Diversity factors for distribution was specified as abiotic factors- temperature, pH, oxygen and water availability.
- Papaya virus was specified as Papaya necrosis virus.

## SEMESTER IV: THEORY

- Dicarboxylic acid cycle was replaced by glyoxylate cycle.
- Blood cascade theory was removed.

## SEMESTER IV: OPEN ELECTIVE THEORY

- Specified topics were discussed and reframed.

## SEMESTER IV: PRACTICAL

- Estimation of DNA by DPA method was retained.
- Effect of temperature, pH and substrate concentration on amylase were retained.
- Scheme and question paper patterns of practical examinations were modified
